Driver's Deadline July 1 for New Licenses; Get 'em Right Now!

Motorists who have been driving under authority of "good until revoked" California operator's licenses, issued during or prior to 1937, are reminded that July 1 has been set as the date for cancellation.

All such driver's licenses become officially revoked after that date without individual notification and those continuing to drive under such authority will be violating the law, according to the Department of Motor Vehicles.

Holdes of 1937 cards must surrender them at Department offices, pass an eye test, driving test and motor vehicle law test, to secure the new four-year term license.
